Following the ridge above the Jenolan River, this walk enjoys great views of the valley along its course. From the various lookouts along the way, it is possible to see the Six Foot Track across the valley. Caves House is a great spot to start and end the walk with a relaxing hot drink or snack. Let us begin by acknowledging the Wiradjuri & Gundungurra people, Traditional Custodians of the land on which we travel today, and pay our respects to their Elders past and present.

**Getting started:** From the opposite side of the Jenolan Caves Road from Caves House, this walk follows the 'Six Foot Track' sign up the concrete steps. The walk then follows the stone footpath up the side of the valley for about 80m to pass the 'Southside Show Caves' information sign then just over 30m later to the 'Grand Arch' information sign (and view of the Arch). The walk continues fairly gently up the path for 100m (as it bends right) to find 'Caves House' information sign. The path soon starts leading much more steeply up as it begins to Zig Zag up past a seat and more views down to caves house for 150m beside the limestone cliffs. At the top of this climb the path leads over a small small rise then gently down to a fenced lookout beside 'Carlotta Arch'.

 After 70 m find the "Jenolan Caves House" (25 m on your right).

Jenolan Caves House, built in 1898, is a heritage-listed building which houses dining, a variety of accommodation options, and other services for visitors to the caves. Jenolan has two licensed restaurants: Trails Bistro is open from breakfast onwards and closes early evening. Trails serves a range of light meals including sandwiches, salads and hot food. Chisholm's Restaurant is open each morning for breakfast and each evening for dinner from 6.00pm. Essential items and beautiful souvenirs may be purchased from Things Jenolan, located on the ground floor of Caves House. Don't forget to explore one of the many caves to explore in the area. For more information, call Jenolan Caves on 1300 76 33 11.

About 130 m past the end is "Blue Lake".

Blue Lake, or Lake Jenolan, is a small lake on the eastern side of the Grand Arch. The lake is fed by the River Styx and the Jenolan River. Blue Lake's intense colour comes from the refraction of light through limestone sediments.

About 90 m past the end is "De Burghs Bridge".

The bridge spanning out from the Grand Arch was designed by Mr Ernest M. De Burgh, and built by the Public Works Department in 1896. The bridge allowed greater access to the caves and was built from locally cut limestone.
