

Wellington Spur Trail

 10 h to 2 days

17.9 km
One way segment

↑ 340 m
↓ 418 m

Moderate track

Starting from Lyall's Mill Campsite, Lyall's Mill, this one-way walk takes you to Wellington Dam. The trail hosts unique eucalypt forests of jarrah, marri and karri, which is dense enough to create a tranquil and serene experience but not so much as to make it harder to navigate. The wildflowers are exceptional along the trail as well. You can bring your camping stuff and continue the trail intermittently as it is longer and have a variety of connections to the other existing trails nearby. The directional signage may be limited, and the tracks can be hard to navigate through at times. Therefore, you might want to wear appropriate footwear and clothing and bring plenty of water. Let us begin by acknowledging the Traditional Custodians of the land on which we travel today, and pay our respects to their Elders past and present.

This is part of longer journey and can not be completed on it is own.
